I am requesting additional student loan funds. I understand that this is a loan, which must be repaid under the terms specified in the student loan disclosure statement. I further understand that in order for this loan to be effective, I must complete a promissory and that I must maintain at a least half-time enrollment during the terms for which the loan is intended, and that my eligibility for this and future financial aid is contingent upon maintaining satisfactory academic progress. I also agree to notify the Office of Student Financial Services immediately if I adjust my class schedule during the period for which this loan is intended, and that I am required to complete exit counseling upon leaving school. I understand that this loan will be canceled and I may have to repay all or part of the amount disbursed to if I am not enrolled at least half-time

Note: A request for student loan funds does not guarantee eligibility for the amount requested. There are many constraints governing student loan eligibility. The amount you receive will be the lesser of the amount requested or the amount that Student Financial Services determines you are eligible to receive. You will receive an award letter detailing your revised award amount.
